

# FL550

This stereo inwall loudspeaker is flatter and even more invisible than any of its predecessors. The frame has been reduced down to 1 millimetre, the frame thickness more than halved. The grill of the loudspeaker has been noticeably fine-tuned and it feels almost like silk if you stroke it. The frame simply clicks itself into place with adjusting screws, you fit the grill magnetically. What's more, it produces a fully-fledged stereo effect on its own thanks to its double tweeter and double connections.

Only room for one connection, but still looking for a stereo effect? The FL550 is the solution.
