

# MIC-621A

The MIC-621A is our allround mic. You can connect it up to different types of amplifier. What's more, it's extremely easy to operate and also includes an emergency battery. Just switch it on, press the button, say what you have to say and finish. Simple and straightforward.

A debate in this conference room (full of novices) requires an easy-to-use microphone. Even non-specialists can use this one.

## TECHNICAL SPECIFICATIONS

|                        |   |
|------------------------|---|
| type                   | condenser microphone                              |
| polar pattern          | cardioid  |
