

PWR05

The sturdy casing of the PWR05 makes you suspect the best at once. With no less than four drivers this fellow produces an amazing sound. It is absolutely unrivalled in the way that it manages to combine the masculine bass with the feminine eye (and ear). Even at a seriously high volume, the class-D amplifier will guarantee no distortion. In addition, this PWR05 is multi-functional. It can, for instance, charge your smartphone and you can connect other sources to it (aux-in). In case just one won't suffice, you can wirelessly connect it to a second source via the TWS-function. You just found your soulmate!

The PWR05 allows you to barge in any kitchen, shed, meeting room, pool house, camp site, festival, swimming pool, club house, if you wish. A press of the volume button will cause immediate attention.
