

RE2060

With an almost frameless grill of 1 millimetre and a thickness of just under 5 millimetres, this loudspeaker gives short shrift to modern-day standards. The titanium driver with neodymium magnet and patented® suspension allows you to point it in any desired direction. The Intiimi series purifies the signal from the amplifier via an advanced separation filter and a correction filter. The front plate and basket are moulded from one piece which helps reduce resonance. The RE2060 is an excellent partner, both for your classical music collection as well as your high-end surround set.

- ① swivel tweeter in an acoustic shell
- ② manual treble control

*High-performance surround set?
The RE2060 is the ideal front
speaker in this type of system.*
