

## MDT600-P

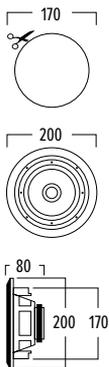

The MDT600-P is the most widely used inwall speaker in 100V projects. Its large 6" driver guarantees a warm sound.

*The larger the diameter of the driver, the bigger the suppression of the speaker. As a result, the speaker is easily able to fill corridors, canteens, offices or reception areas, such as here.*

### DIMENSIONS

### TECHNICAL SPECIFICATIONS

range	<50m <sup>2</sup>
system	full range driver
woofer	6" paper cone
tweeter	-
max power (100V)	3 - 6 - 9W
max power (8Ω)	-
sensitivity (1W / 1m)	91dB
impedance	-
frequency range	80Hz - 18kHz
dimensions (Ø x d)	170mm
weight / piece	200 x 80mm
weight / piece	0,9kg
composition	ABS
colour	white
features	spring clip
